Note to existing members: This Formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (Formulary) refers to “we,” “us,” or “our,” it means **Blue Cross and Blue Shield of Alabama and UTIC Insurance Company**. When it refers to “plan” or “our plan,” it means **BlueRx (PDP)**.

This document includes a Drug List (formulary) for our plan which is current as of June 1, 2025. For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2026, and from time to time during the year.

What is the BlueRx formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by **BlueRx** in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. **BlueRx** will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a **BlueRx** network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here:

www.bluerxalatenn.com.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to the **BlueRx** Formulary?”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the **BlueRx**’s Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2025 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2025 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of June 1, 2025. To get updated information about the drugs covered by **BlueRx** please contact us. Our contact information appears on the front and back cover pages. In the event that **BlueRx** makes a non-maintenance change to the formulary, such as removing a drug from our formulary, or adding prior authorizations, quantity limits and/or step therapy restrictions to a drug, or changing a tiered cost-sharing status, **BlueRx** will mail a written notice at least 60 days prior to the change becoming effective. Please keep this notice with your formulary.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular Agents. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 72. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

BlueRx covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

- For discussion of drug types, please see the Evidence of Coverage, Chapter 3, Section 3.1, “The ‘Drug List’ tells which Part D drugs are covered.”

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** **BlueRx** requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from **BlueRx** before you fill your prescriptions. If you don’t get approval, **BlueRx** may not cover the drug.
- **Quantity Limits:** For certain drugs, **BlueRx** limits the amount of the drug that **BlueRx** will cover. For example, **BlueRx** provides 60 tablets/30 days per prescription for *losartan 25 mg*. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, **BlueRx** requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, **BlueRx** may not cover Drug B unless you try Drug A first. If Drug A does not work for you, **BlueRx** will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions.

You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask us to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the **BlueRx**’s formulary?” on page iv for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that **BlueRx** does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by **BlueRx**. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by **BlueRx**.
- You can ask **BlueRx** to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to BlueRx’s Formulary?

You can ask **BlueRx** to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You cannot ask us to change the cost-sharing tier for any drug in Cost-Sharing Tier 1 - Preferred Generic, Cost-Sharing Tier 3 - Preferred Brand, and Cost-Sharing Tier 5 - Specialty Tier.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, **BlueRx** limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, **BlueRx** will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or, formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber’s supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber’s supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

In addition to circumstances impacting new members who may enter a plan with a medication list that contains non-formulary Part D drugs, other circumstances exist in which unplanned transitions for current members could arise and in which prescribed drug regimens may not be on the Plan Sponsor's formulary. These circumstances usually involve level of care changes in which a member is changing from one treatment setting to another.

For these unplanned transitions, members and prescribers must avail themselves of the Plan Sponsor's exceptions and appeals processes. Coverage determinations are processed and redeterminations are made as expeditiously as the member's health condition requires.

In order to prevent a temporary gap in care when a member is discharged to home, members are permitted to have a full outpatient supply available to continue therapy once their limited supply provided at discharge is exhausted. This outpatient supply is available in advance of discharge from a Part A stay.

When a member is admitted to or discharged from a long-term care facility, and does not have access to the remainder of the previously dispensed prescription, a one-time override of the "refill too soon" edits is processed for each medication which would be impacted due to a member being admitted to or discharged from a long-term care facility. Early refill edits are not used to limit appropriate and necessary access to a member's Part D benefit, and such members are allowed to access a refill upon admission or discharge.

For more detailed information about your **BlueRx** prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about **BlueRx**, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

BlueRx Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by **BlueRx**. If you have trouble finding your drug in the list, turn to the Index that begins on page 72.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., LANTUS) and generic drugs are listed in lower-case italics (e.g., *metformin*).

The information in the Requirements/Limits column tells you if **BlueRx** has any special requirements for coverage of your drug.

Contact your plan for details.

Drug Name	Drug Tier	Requirements/Limits
-----------	-----------	---------------------

Column 1, the *Drug Name* column, provides information such as drug name and if the drug is BRAND or generic.

Column 2, the *Drug Tier* column, provides information on which of the 5 tiers the drug has been assigned. Member cost-sharing is based on drug tier assignment, day supply, and pharmacy selected.

Tier 1 = Preferred Generic

Tier 2 = Generic

Tier 3 = Preferred Brand

Tier 4 = Non-Preferred Drug

Tier 5 = Specialty

Column 3, the *Requirements/Limits* columns, indicates if a drug has any additional requirements or limits under Utilization Management including *Prior Authorization*, *Quantity Limits*, and *Step Therapy*.

BD = Drugs that may be covered under Medicare Part B or Part D depending on the circumstance. These drugs require prior authorization to determine coverage under Part B or Part D. Information may need to be provided that describes the use or the place where the drug is received to determine coverage.

PA = Prior Authorization

QL = Quantity Limits

ST = Step Therapy

* = Limited Distribution Drug. This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Member Services at **1-800-327-3998 (AL)/ 1-888-311-7508 (TN)** (TTY users **711**), Monday - Friday, 8 a.m. – 8 p.m. CST. From October 1 to March 31, the hours of operation are Monday - Sunday, 8 a.m. – 8 p.m. CST. You may be required to leave a message for calls made after hours, weekends and holidays. Calls will be returned the next business day.

= High Risk Medication (HRM). Medicine that may be unsafe in patients greater than 65 years of age. Our formulary does include coverage for some of these drugs, but alternatives may be found in lower co-pay tiers. Please discuss with your doctor if there are alternatives to these medications that would be appropriate for you to use.

† = Split-Fill (partial day supply); This high-cost medication is indicated with a cross (†) for you to request a 2-week supply (partial fill) of medication versus a full month. This partial fill may allow for copay savings if the medicine causes severe side effects, and you stop taking it or have a dosage change. If there are no

side effects, you may only pay the rest of your monthly copay when you pick up the remaining 2-week supply, if applicable.

Generally, we will cover your prescriptions only if they are filled at one of our network pharmacies. Some of our network pharmacies are also preferred. You may go to either preferred cost-sharing pharmacies or standard cost-sharing pharmacies to receive your covered prescription drugs. Your costs will typically be less at preferred pharmacies.

The table below describes your share of the cost for **BlueRx Enhanced Plus** when you get a covered Part D prescription drug for a one-month (30-day) supply at a Preferred Cost-Sharing Pharmacy, a one-month (30-day) supply at a Preferred Mail-Order Pharmacy, a long-term (100-day) supply from a Preferred Cost-Sharing Pharmacy or a long-term (100-day) supply from a Preferred Mail-Order Pharmacy on all covered Part D Drugs on Tier 3, Tier 4 and Tier 5.
